Keep it simple! The report has all the information and has been distributed to the Commission.

I would suggest everyone planning on meeting 30 to 45 minutes before the meeting begin to check in. I would recommend the coffee shop on the second floor.

You guys are going to do great.

Marcel

Daryl and I have been working on this all day. I personally don't see how to cover the extensiveness of this topic in 5 slides. Without a sufficient level of detail in the presentation, we will not be able to impart much of what the group has been working on for the last year. We are trying to get it down to 1 slide per area that was covered and even that is a challenge. Regardless of the number of slides, we will keep the presentation to 10 minutes and then leave the balance of the time for questions.

If anyone wants to create a 5 slide presentation, please feel free and upload it to the Google drive so we can look at it and see how it could work.

I think that's an excellent suggestion and it's consistent with my appearances in front of city bodies.

On Apr 8, 2015 4:49 PM, "Frank Lopez" <flopez@lachamber.com> wrote:

Team - Given that the group will only have 10 minutes to present tomorrow, I recommend we try to limit the # of slides to 5 (2 minutes per slide)

Below is my recommendation on how to structure the presentation:

1. Mayor created working group on X date and tasked them with X, Y, Z
2. Who participated and what was the process
3. Guiding principles and key findings from research
4. Overview of the key recommendations
5. Implementation process moving forward

An appendix with more detailed info for each of the issues addressed in the report could be included at the end of the presentation

Frank

Hi Jay,

Juan had asked me to start forming a presentation as well. You can find what I have so far on the Google Drive under the open access folder [here](#).

It's part of the regularly scheduled Transportation Commission meeting that is open to the public.

See attached agenda.

Is there a presentation available that we can forward to the Commission or will we just be referencing the report?

Hi All,

I'm excited about tomorrow's presentation of our work group findings to the Transportation Commission. This is a great opportunity to get our report out in front of a very important group of decision makers, and a precursor to getting it in front of the City Council.

It would be great for as many of you to attend as possible, as this will demonstrate to the Commission the breadth of our working group and the many volunteers who worked on this.

The Commissioners have already been provided with our report. We will do a short powerpoint presentation and then field questions from the Commission. Though I've been asked to take the lead in our presentation, I'll definitely welcome input from work group members to answer questions.

The meeting is tomorrow, 4/9 at 10:00am at City Hall, Rm 1070 on the 10th floor. If you need parking, please contact Margaret Wynne at margaret.wynne@lacity.org with your car make, color and lic plate.

I'm looking forward to seeing many of you there!

Working group members,

I've started a [Google Document in our Open Access Shared Folder](#) so we can plan for our April 9th meeting with the City's Transportation Commission. Please add your name to the list there if you plan to attend that meeting.

Hello everyone,

I hope everyone is doing well. I wanted to take a moment to check-in with the working group and provide an update and next steps.

Thank you to Juan and Barry for also reaching out on behalf of the working group.

I've shared the report with my colleagues in the City family as well as the City's Transportation Commission.

The next step moving forward will be to schedule the report in the April 9th Transportation Commission where we can have members of the Parking Reform Working Group on hand to comment/present their recommendations.

Please let me know if you have any questions.

Best,

Marcel
